

## AARP BLASTS PROPERTY TAXES

The America Association of Retired Persons has a national policy regarding property taxes. It reads:

**“Property tax is the single most burdensome tax for many low-income and older persons. States should broaden their method of financing public education, thereby taking some of the burden off the regressive property tax.” (End quote)**

S.T.O.P. says: Abolish ALL property taxes on homesteads (primary residences) in Pennsylvania.

\* End the horrid practice of confiscating and putting up for sheriff sale, the homes of seniors, veterans, young couples, disabled folks and others who can't keep up with the property tax burden.

\* Did you know that The Allegheny County Sheriff placed sheriff sale ads totaling \$3.2 MILLION during 2001 and 2002? The ads, paid for by the litigants, were placed in the Post Gazette, Tribune Review, and the Law Journal. Is this why the Post Gazette and Tribune-Review favor the continuation of the present property tax system? Why don't they mention how the newspapers benefit when they write their editorials or other articles supporting the unjust and immoral property tax system?

\* Spread the word and help Pennsylvania become America's only Home Free State. [www.grandolusa.com](http://www.grandolusa.com)
